PLASTIC PRODUCTS USING CATIA SOFTWARE

All **plastic parts** which are mounted inside of Car (Vehicle) or any vehicle are known as interior trim parts. For example DashBoard, Door Trim, Center Console & Pillar Trims, depend largely on plastic to add functionality & decorative to a Vehicle Interior.

Automotive design is the profession involved in the development of the appearance and ergonomics of vehicles.

Core Cadd Solutions provide professional training in design. Our Training & Services design such that freshers can easily make their career in design. Our Trainer are highly experienced in the same Domain.
